**ABOUT THE SPEAKER**

Susan Cuoccio MS Ed. LLC, parent trainer, educator and college lecturer addressing early childhood, special education, and children on the autism spectrum. In 1999 she earned a Master of Science in Special Education, with a concentration in Autism. It also prepared her to work in teams with psychologists, social workers, and families to respond to the special needs of this unique population.

She hopes to use her 30 years' experience as a professional and as a parent who has raised an autistic son, to support educators, parents, and professionals. By providing trainings and consultations she can offer the tools needed to support their work, thus increasing their comfort level, and understanding of working with people with learning and behavioral challenges, either in the home, school or even district wide.
