About ADAPT

ADAPT Community Network is the leading human service not-for-profit and a pioneer in providing cutting edge programs and services for children and adults with disabilities. Every day, we build a more inclusive world for thousands of New Yorkers through education, technology, health, residential and recreational programs in all five boroughs

Letter from the Chief Executive Officer and the Chair of the Board

Dear Friends,

On behalf of our Board of Directors, our staff, and the thousands of children, adults, and families we proudly support, thank you for helping us thrive. As we look back on the last two years, we celebrate the achievements of our organization, our incredible staff, and most importantly the people we support.

This annual report reflects the mission, vision, and values that continue to guide and inspire our work. Our theme, Creating the Future, captures our unwavering commitment to building a more inclusive world for people with disabilities, and encapsulates the core of everything we do.

This year's report carries special significance. It is the first to be published without the signatures of two extraordinary ADAPT champions whose leadership helped shape our organization for decades. Gary Geresi, our former Board Chair, a devoted parent, and a Board member for over forty years, passed away in August 2024. In November 2024, we lost our beloved CEO of thirty-five years, Edward R. Matthews. Their vision, compassion, and steadfast dedication left a long-lasting mark on our community. These men were visionaries and left a legacy that we must pay forward. This report highlights and celebrates their accomplishments and the profound impact they made.

We are so proud of what we have achieved—and even more inspired by what lies ahead. Creating the Future is not just a theme, but a declaration of purpose. It means harnessing innovation, pushing boundaries, and expanding opportunities for the people we support. With your continued partnership, we will move forward boldly guided by our values, driven by our mission, and committed to building a future that includes everyone, every step of the way.

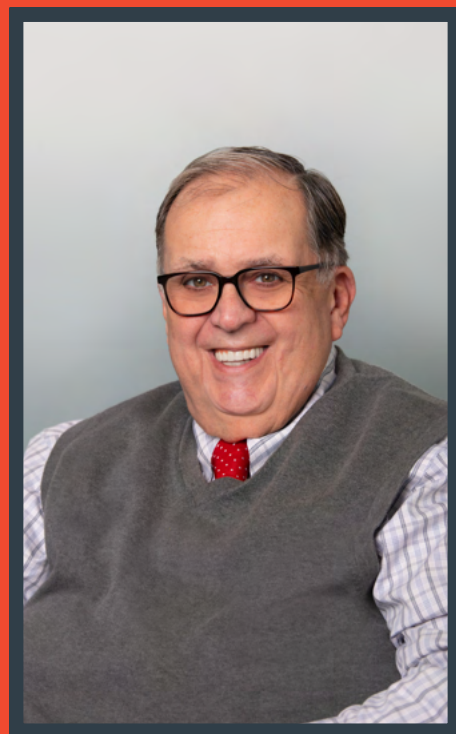

With deepest thanks,

Linda B. Laul
Chief Executive Officer

Remembering Edward R. Matthews

Edward R. Matthews began his career at ADAPT Community Network in 1986, becoming the CEO in 1989. To the larger I/DD community Ed was a guiding light, with Forbes calling him a “powerhouse leader for people with disabilities.” Ed’s wisdom and influence on the field of intellectual disabilities spanned fifty years. From the closure of Willowbrook, to his work moving the system toward managed care, not to mention all the accomplishments of ADAPT, Ed leaves a footprint that very few, if any, could replicate.

See the full impact of
Ed’s influence:

“

Ed always recognized the importance of developing a solid team to get the work done and provided an environment for collaboration and brainstorming. I am so grateful to have known Ed over these many years. He was my best friend and will be sorely missed but never forgotten.

— Linda B. Laul, Chief Executive
Officer, ADAPT Community Network

Top Stories

ADAPT is continuously sharing the amazing work that happens across the organization. Here are some of our favorites from 2023 and 2024.

ADAPT Launches New Computer Labs and Assistive Technology Program

ADAPT's new computer labs are designed to enhance access, relationships, and education. This initiative focuses on peer-to-peer support, where our people supported identify needs and provide online support across the organization with the help of our IT department.

ADAPT Theatre Program Launches Three Adaptive Plays

Over the past two years, our people supported coordinated and starred in multiple performances for three incredible plays: United Voices, Almost Maine, and Hamlet. Our theatre program helps our people supported and abled bodied community members come together and discover new talents and learn front and back of house skills.

ADAPT Jamboree Brings Together Families, Staff, and the Community

Our ADAPT Family Jamboree was an adaptable day of fun. Thanks to a special grant from the New York State Elks Association, the event provided families with meaningful opportunities to socialize, share, and learn more about supports and services available through ADAPT.

Remembering Gary Geresi

Gary's relationship with ADAPT began over four decades ago, after he and his wife Anita adopted their son Michael and discovered he had special needs. Upon learning that there was very little help for children with disabilities, Gary and Anita sprang into action, fighting the system, a battle that would change not only their son's life but the lives of thousands of children and adults with disabilities throughout New York City. ADAPT benefited immensely from his leadership on and off the board with the development of several recreation programs and events for the people supported by ADAPT. Gary brought his financial expertise to ADAPT in his capacity as a longtime member of the Board of Directors, serving as its Treasurer and most recently as the President of the board. Gary once said that if helping his son also helped other families, that was the ultimate reward and provided him with the motivation to keep working on behalf of children and families with disabilities for years to come.

ADAPT Virtual Family Connect Summit

2023 & 2024

Navigating the world of intellectual and developmental disability (I/DD) services is never easy, but ADAPT Community Network aims to simplify it with our annual Virtual Family Connect Summit. The day-long virtual summit consists of five easy-to-understand informational sessions, each led by I/DD experts and tailored to assist families of people with disabilities.

Over a thousand registrants signed up for our 2023 Virtual Family Connect Summit, with a focus on "The Future of Healthcare for People with Disabilities." The excitement continued in 2024 with a focus on "Creating the Future." The Summit brought together families of children and adults with intellectual and developmental disabilities to share resources, supports, and services, and contributed to an online resource hub for our supported families.
