ADAPT Philosophy

ADAPT's Dedication to Children's Services

ADAPT is devoted to providing comprehensive education for children and young adults. Our preschool, school-age, and after-school programs are thoughtfully crafted to engage and educate children with special needs.

High-Quality Learning Environment

Our universal pre-kindergarten and integrated programs create a welcoming, family-friendly learning atmosphere for children across all developmental stages. Each class is conducted by licensed and certified teachers, supported by certified teaching assistants to ensure the best educational experience.

Creative Curriculum

Our Program's Approach to Learning

Our program employs the Creative Curriculum to choose our units of study every six weeks. This year, the children engaged in various fascinating topics, including:

- The Building Study
- The Clothes Study
- Simple Machines
- The Tree Study

Teachers collaborate in teams that meet weekly to discuss activities, projects, differentiate instruction, and plan collectively to effectively support each child's unique learning style.

Working & Learning

Sample Schedule/Flow of the Day

Students start their school day at 8:00 a.m., arriving either via family drop-off or the school bus. Throughout the day, children engage in a variety of activities, including:

- Morning meeting
- Learning centers (twice)
- Music and movement
- Playroom or gym time
- Lunch
- Large group activities
- Read-aloud sessions
- Day's recap

These experiences contribute to a well-rounded school day.

Pyramid Model

The Pyramid Model is a conceptual framework of evidence-based practices for promoting young children's healthy social and emotional development.

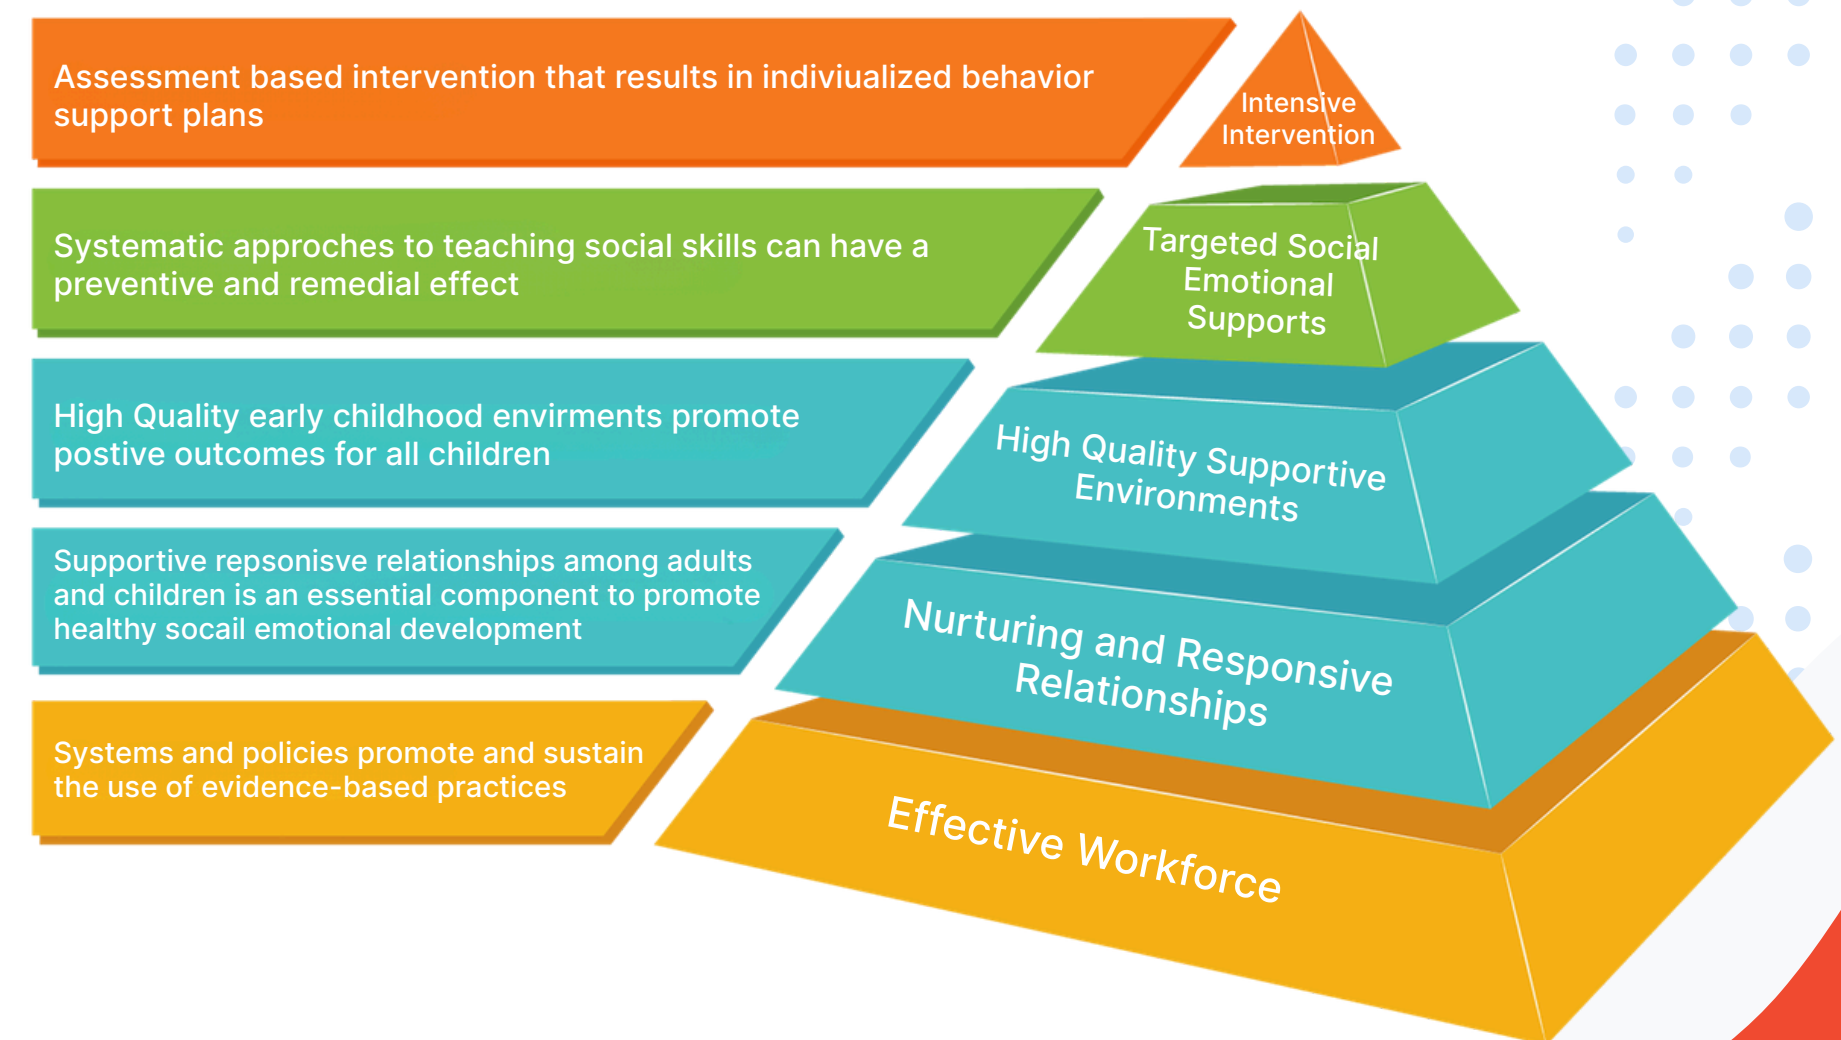

Supporting the Pyramid Model

- At the base of the Pyramid Model is a skilled and effective workforce.
- The foundation for all practices within the Pyramid Model consists of the essential systems and policies that enable a workforce to adopt and maintain these evidence-based practices.

Tier 1: Universal Promotion

Universal supports for all children through nurturing and responsive relationships and high quality environments. At the universal level we include the practices needed to ensure the promotion of the social development of all children.

- High Quality Environments
 - Inclusive early care and education environments
 - Supportive home environments
- Nurturing and Responsive Relationships
 - Essential to healthy social development
 - Includes relationships with children, families and team members

Our program teaches the students about the 3B's. We incorporate this into all of our activities and learning throughout the day. We model for children what it means to be:

Be kind, Be safe, Be helpful
